

ST.JOSEPH'S COLLEGE (AUTONOMOUS) , IRINJALAKUDA

Title of the programme

This DEGREE shall be called **MASTER OF COMMERCE (M.COM.)**.

Eligibility for admission

Any candidate who has passed B.COM or BBA (earlier BBS) degree of University of Calicut or B.COM, BBA or BBM or BBS degree of any other University or Institute in any state recognized by UGC or AICTE with a minimum of 45% marks is eligible for admission. OBC and SC/ST students are eligible for relaxation as per University rules.

Duration of the programme

The duration of the M.COM programme of study is two years divided into four semesters.

Medium of Instruction

The medium of instruction and examination shall be English.

Subjects of study.

The subjects of study leading to the award of M.COM. Shall comprise the following courses:

Semester One

MC1C1 Business Environment

MC1C2 Quantitative Techniques for Business Decisions

MC1C3 Accounting for Managerial Decisions

MC1C4 IT Applications in Commerce

MC1C5 Organizational theory and Behavior

Semester Two

MC2C6 International Business

MC2C7 Advanced corporate Accounting

MC2C8 Business Communications

M.C2C9 Management Science

MC2C10 Strategic Management and Corporate Governance

Semester Three

MC3C11 Financial Markets and Institutions

MC3C12 Income tax law and Practice

MC3C13 Research Methodology

MC3E01 Elective I

MC3E02 Elective II

Semester Four

MC4C14 Financial Derivatives and Risk Management

MC4C15 Cost Management

MC4E03 Elective III

MC4E04 Elective IV

MC4P01 Project Work and Viva Voce

Electives Finance:

Course Code	Name
MC3E(F)01	Financial Management
MC3E(F)02	Security Analysis and Portfolio Management
MC4E(F)03	Strategic Financial Management
MC4E(F)04	Tax Planning and Management

All the above courses can be handled by Commerce faculty.

There should be industrial visit/study tour in the third semester for a minimum period of two days and report shall be submitted to the Head of the department within two weeks of the visit

Attendance

A candidate shall attend a minimum of 75% of the number of classes actually held for each of the courses in a semester to be eligible for appearing for examination in that course. If the candidate has shortage of attendance in any course in any semester, he or she shall not be allowed to appear for any examination in that semester. However, the University may condone up to 10% of shortage if the

candidate applies for it as laid down in University procedures and if the Vice Chancellor is satisfied with the reasons cited by the candidate for his absence in classes.

Duration of the semester

Each semester shall consist of 16 weeks of study. This does not include the time used for conducting end semester examinations.

Internal Assessment

All courses except project work shall have internal assessment.

Project work

During the third and fourth semesters each student shall do a project work under the guidance of a faculty member.

The project should be done individually on a topic based on a business organization or a social or economic problem relating to the discipline to be decided by the student under supervising teacher.

The candidate shall prepare at least two copies of the report: one copy for submission to the Department and one copy for the student which he/she has to bring with him/her at the time of viva voce. More copies may be prepared if the organization or the guide or both ask for one copy each.

The report shall be printed (or neatly typed) and bound (preferably spiral bound) with not less than 50 A4 size, 1.5 spaced, pages, Times New Roman Font, Font Size 13 pt.

The project report should be submitted to the Head, Department of Commerce of the College where he/she is doing M.Com at least 10 days before the last working day of the fourth semester duly certified by the guide.

Structure of the report

Title page

Certificate from the organization (if the project work is done in an organization).

Certificate from the supervising teacher.

Declaration of student.

Acknowledgements

Contents

Chapter I: Introduction (Significance of the study, Research problem, objectives of the study, Research methodology etc.)

Chapter II: Review of literature

Chapter III: Organization Profile/Conceptual Frame work

Chapter IV: Data Analysis and Interpretation

Chapter V: Summary, Findings and Recommendations.

Appendix: Questionnaire, specimen copies of forms, other exhibits etc.

Bibliography: Books, journal articles etc. used for the project work.

Project work shall have the following stages

- Problem identification
- Project draft proposal presentation and discussion
- Finalization of the proposal
- Data collection and analysis of data
- Reporting writing
- Final Project Report submission.

Viva Voce

At the end of fourth semester, each candidate shall attend a comprehensive viva voce.

The viva board shall have two external members and one internal member.

Guideline for evaluation of Project Evaluation and conduct of Viva-voce

(a) The Project work may be started in Third Semester.

(b) The Head of the Department shall arrange the internal evaluation of the Project work and upload the mark to the University website.

(c) The internal marks of 20 shall be distributed based on the following criteria:

1 Report Writing - 10 Marks

2 Viva-voce - 10 marks

(d) The external marks shall be awarded by conducting Viva-voce by the Board consisting of External and Internal examiners constituted for this purpose.

The external examiners shall be appointed by the College. The internal examiner shall be the Head, Department of Commerce of the College or a faculty member nominated by him or her from the Department of Commerce.

(e) The External marks of 80 shall be distributed based on the following criteria.

1 Relevance of the topic, statement of the problem , research methodology	15 Marks
2 Presentation, Quality of analysis, Findings and Conclusion	25 marks
3 Comprehensive Viva voce	40 marks
Total	80 marks

Note:

1. Practice of 20 hours for each course is for the students to prepare for seminar, visit firms, do and present assignment etc.

ST.JOSEPH'S COLLEGE (AUTONOMOUS) , IRINJALAKUDA

Master of Commerce (CSS)

Semester I

MC1C1: BUSINESS ENVIRONMENT

80 Hours

Marks: 80

Objectives:

- To familiarize students with the concepts of macro-economic in which a Business organization operates.
- To give an idea about the policies of the government and assess their impact on business.

Module I:

Business Environment: Components and significance – Scope –political, Economic, Social, Technological, Legal, Cultural and Labour Environment – Trade Unions – Quality Circles – External Factors Influencing Business Environment – Dimensions of International Business Environment – Challenges.

15 hours

Module II:

Structure of Indian Economy: Economic Systems – Economic Planning – Planning Commission and NITI Ayog – Public Sector – Changing Role – Relevance – Public Sector Reforms – Public Private Participation – Privatization and Disinvestments – Fiscal Policy – Monetary Policy – Structure of Union and State Budgets – Sources of Revenue – Management of Public Debt.

20 hours

Module III:

Profile of Indian Economy: New Economic and Industrial Policy – Economic Reforms – Land Reforms – Liberalization – Problems of Growth –Unemployment – Poverty – Regional Imbalances – SEZ – Social Injustices –Inflation – Black Money – Lack of Technical Knowledge and Information – Globalization Various Aspects – Consequences

15 hours

Module IV:

Foreign Direct Investment and Institutional Investment : Forms –Policy - FDI in Retail Trade – Problems and Consequences – FEMA –Multinational Corporations Role and Recent Trends – Problems and Consequences– Competition Law.

10 hours

Module V:

International Agreements – An Overview: WTO – WTO and India –Trade Related Intellectual Property Rights (TRIPS) – Trade related Investment Measures (TRIMS) – General Agreement on Trade in Services (GATS) – Environment Protection Act- Environmental Studies An Overview, Pollution Control Act 1986,Environment Protection Act 1986-Biological Diversity Act 2002-National Green Tribunal Act 2010-Consumer Protection Act 1986-Right to Information Act 2005– Intellectual Property Rights – Barriers to Trade – Recent Foreign trade policy. **20 hours**

Semester I

MC1C2: QUANTITATIVE TECHNIQUES FOR BUSINESS DECISIONS

80 Hours

Marks: 80

Objectives:

- To acquaint students with important quantitative techniques, which enable sound business decision making
- To make students learn the process of applying appropriate quantitative techniques for validating findings and interpreting results.

Module 1:

Quantitative Techniques :Qualitative and quantitative approaches –role in decision making – Significance of quantitative decisions - Inferential analysis for management – statistical estimation – point estimation – interval estimation – Confidential Limits – estimating population mean –estimating population proportion – Sample size and its determination. **15 hours**

Module 2:

Tests of significance : Basic concepts – parametric tests – sampling distribution – large and small samples – standard error – hypothesis – level of significance – degree of freedom – central limit theorem – critical value. Parametric tests – tests for means, tests for proportions, tests for variance – Z test, t test, F test– Test for Paired Observations – Analysis of Variance – one way and two way classifications. **20 hours**

Module 3 :

Non-parametric tests : assumptions – Features – Advantages –Limitations – Chi Square test – contingency tables – tests for goodness of fit – test for independency – Sign test, Wilcoxon Signed Rank test – Mann Whitney U test –Kruskell Wallis test – Wald Wolfowitz Runs test – Applications in business. **15 hours**

Module 4 :

Statistical quality control : variations – Assignable variations and chance variations – process control – product control – control charts for variables– control for attributes – X chart –R chart – P chart –np chart –C chart – merits of control charts – Applications in business. **15 hours**

Module 5:

Correlation : types – Coefficient of Correlation – Rank correlation –Partial and Multiple correlation – Regression – probable error – Software for Quantitative methods – SPSS – Data Entry – Analysis tools – Descriptive statistics – Inferential Analysis. **15 hours**

7. Gupta SP, Statistical Methods, S. Chand & Sons.

Semester I

MC1C3: ACCOUNTING FOR MANAGERIAL DECISIONS

80 Hours

Marks: 80

Objectives:

Enable the students to know the applications of accounting tools, techniques and concepts in managerial decision making process.

Module 1:

Management Accounting: Nature, Scope and functions – Role of management Accountant – Cost concepts and classifications – Variable costing and Absorption costing – emerging costing approaches – Life Cycle Costing – Quality costing – kaizen costing – throughput costing – Back flush costing.

10 hours

Module 2:

Capital investment Process : Investment appraisal methods – Payback period – ARR – Time adjusted methods – Discounted payback period – Net Present value method – IRR – Profitability index – Terminal value method – Capital Rationing – Risk analysis – Decision tree approach – sensitivity analysis – Other statistical methods.

20 hours

Module 3:

CVP Analysis and Decision making : Managerial applications of CVP analysis – Make or Buy decisions – Alternative methods of Production – Buy or lease decision – Shut down or continue – Repair or replace – Accepting bulk orders for Idle capacity utilization – Pricing under different situations – Suitable product mix, and Key Factor.

15 hours

Module 4:

Activity Based Costing (ABC) – Need for emergence of ABC – Concept of ABC –Kaplam and Cooper's approach to ABC-Cost drivers and cost pools –Characteristics of ABC-Allocation of overheads under ABC-Steps in ABC system Implementation of ABC and its benefits– Cost control and cost reduction techniques – Value Engineering.

15 hours

Module 5: Performance measurement : Financial and non-financial measurement of performance – Return on investment – Residual income – Economic value added(EVA) – Concept – measurement – Balanced score card – Concept – objectives –Multiple score card measures – New horizons in Managerial

control – Transfer pricing – Responsibility accounting – Performance Budgeting – ZBB – Social cost benefit analysis. **20 hours**

(Theory 40% and Problems 60%)

Semester I

MC1C4: IT APPLICATIONS IN COMMERCE

80 Hours

Marks: 80

Objectives:

1. To get an overall idea about various IT applications used in the business platform especially MIS.
2. To make a practical approach in spreadsheet modeling and database management System.
3. To get an idea about the integrated business solution package.

Module I:

Concept of MIS : Information- Concept of information – Characteristics of information – quality of information - information overload – System – System concepts – Types of systems – characteristics of system – control in systems –system stress – Characteristics of MIS – MIS architecture – Basic structural

concepts – MIS and other academic disciplines – Need for MIS – Strategic role of MIS - Limitations of MIS – Approaches for system development : System development life cycle – prototyping – Rapid Application development – End user development. **20 hours**

Module II:

Introduction to different Sub-systems: Transaction Processing Systems, Office Automation Systems - Decision Support Systems – Executive Information Systems - Artificial intelligence and Expert systems. Functional Information Systems in Business - Production Information system – Marketing Information System – Financial Information System – HR Information System. **12 hours**

Module III :

Spread sheet based application for business : basic concept of spreadsheet – popular spreadsheet based programmes – Modeling in spreadsheet –formulation – Logical functions – Financial functions – Statistical analysis –spreadsheet security – database function in spreadsheet – linking data between work sheets – developing models for liquidity and profitability analysis by using accounting ratios – Project appraisal using spread sheet – Inventory management. **20 hours**

Module IV :

Database management technology : Data base concept – Database terminology – DBMS – Popular DB softwares – Components of DBMS – Database structure – RDBMS – DBA – Data mining – Data warehousing – Introduction to database software – Elements and objects of database software – Table creation –Query creation – Form creation – Report Generation – Business application of Database software **20 hours**

Module V :

Enterprise Resource Planning : Introduction – Features of ERP –Database and ERP – ERP & BPR – ERP Modules – ERP implementation methodology – Popular ERP Packages. **8 hours**

References:

1. Management Information Systems: LM Prasad & Usha Prasad – Sulthan Chand & Sons.
2. Management Information Systems: AK Gupta – S Chand & Co. Ltd.

4. Enterprise Resource Planning: Alexis Leon.

Semester I

MC1C5: ORGANISATIONAL THEORY AND BEHAVIOR

80 Hours Marks: 80

Module I:

Organizational basis for behavior – Contributing disciplines to the OB field - Need for the knowledge of OB – Need for a contingency approach to the study of OB – Emerging challenges and opportunities for OB – the organization as a system – System – System approach to organizational behavior – Managerial functions – The organization and people. **10 hours**

Module II :

Basic psychological process – Perception – Factors influencing perception - Attribution theory – Specific applications in organizations – Learning -Theories of learning – Using learning concepts for self management – implications for performance and satisfaction – Remembering – Basic motivational concepts –Theories of motivation. **20 hours**

Module III: Personality – Determinants of personality – Theories of personality –Major personality attributes influencing organization behavior - Building and maintaining the self values, attitudes and job satisfaction – Ethical issues in organizational behavior – Mental and health problems in organizations – role of counseling. **20 hours**

Module IV:

Group dynamic and inter group relationships – Characteristics of workgroup – Basic forces of group behavior – Dynamics of effective operating groups – Work group behavior and productivity - Team management – Styles and skills in leadership and communication – Power and politics in organization –Managing differences and conflicts – managing change – Organization and society. **20 hours**

Module V :

Organizational development – Techniques of organizational development Interventions – Grid management – Transactional analysis –Sensitivity training – Process consultancy - Case discussions and analysis. **10 hours**

References:

1. Fred Luthans: Organisational behavior
2. Danial C. Fieldman and Hugh Arnold: Managing individual and group behavior in organization.

4. Edwin Gerlog: Organization theory and design

Semester II**MC2C6: INTERNATIONAL BUSINESS****80 Hours****Marks: 80**

Objectives: To acquaint the students with various concepts of foreign trade and international business.

Module I:

International Business: Meaning and Scope – Theories of International trade: classical and modern theories – protectionism vs. free trade – Trade barriers - Tariff and Non-tariff barriers – Terms of trade – Balance of payment – disequilibrium and corrective measures. **15 hours**

Module 2:

International Business Analysis: Internal and External environment analysis – Modes of Entry - exporting – Licensing – franchising – contract manufacturing – Management contracts, turnkey projects – Foreign Direct Investments: Greenfield Investments – Mergers & Acquisitions – joint ventures – FDIs in emerging markets: recent trends. **15 hours**

Module 3:

Stages of Internationalization: International, Multinational, Global and Transnational corporations – strategic orientations – Growth of MNCs - contributing factors – merits and demerits of MNC – transfer of technology – regulation of MNCs – MNCs in India. **18 hours**

Module 4:

International Traded Agreements: Bilateral, Plurilateral and Multilateral agreements – GATT and WTO – WTO agreements - TRIPs, TRIMs, GATS and AoA – Trade Facilitation Issues – Environmental issues – India and WTO 17 hours

Module 5:

Regional Economic Integrations: Meaning and rationale – Forms of integrations – EU, NAFTA, ASEAN, SAFTA, APEC and other groupings – International Financial Institutions - IMF, World Bank and ADB – functions and role in economic development. **15 hours**

Semester II**MC2C7: ADVANCED CORPORATE ACCOUNTING****80 Hours****Marks: 80****Objectives:**

1. To provide theoretical knowledge of International Financial Reporting Standards.
2. To enable the students to gain ability to solve problems relating to Holding Company, Accounts, Liquidation of Companies and various other Accounts.

Module 1:

International Financial Reporting Standards (IFRS): Introduction – Meaning – Scope – An Overview of the International Financial Reporting Standards – IFRS 1 to 13, Role of IASB – Arguments for Global Convergence – Required disclosure as per IFRS – Achievements of IASB and Obstacles in Convergence – Difference between IFRS and Indian Accounting Standards – US GAAP.

15 hours

Module 2:

Accounting for Group companies: Holding Companies – Definition – Accounts Consolidation – Preparation of Consolidated Balance Sheet – Minority Interest – Pre – acquisition or Capital Profits – Cost of Control or Goodwill – Intercompany Balance – Unrealized inter company profits – Revaluation of assets and liabilities – Bonus Shares – Treatment of Dividend **20 hours**

Module 3:

Accounting for corporate restructuring - Internal - External - Merges and Acquisition - Accounting for Liquidation of Companies: Preparation of Statement of Affairs – Deficiency/Surplus Account – Liquidator's Final Statement of Account-Receiver's Statement of Accounts.

25 hours**Module 4:**

Voyage Accounts: Meaning of important terms – Voyage in progress - Farm Accounts: Characteristics – Advantages and Disadvantages – Final Accounts of Farms.

10 hours**Module 5:**

Human Resources Accounting: Objectives – Methods of Valuation – Advantages and Disadvantages
Accounting for Price Level Changes: Methods – CPP, CCA and Hybrid.

10 hours

Semester II

MC2C8: BUSINESS COMMUNICATION

80 Hours

Mark: 80

Objectives:

1. To understand the process of business communication
2. To acquire required skills to manage business communication
3. To give awareness about and to help develop the personality of the students

Module I:

Business Communication : meaning – need – process – methods – written, verbal, non-verbal, visual, telecommunications; types of business communications – internal and external, upward and downward, lateral; barriers to communication – physical, psychological, linguistic, mechanical.

10 hours

Module II:

Communication through letters: business letters - layout of letters kinds of business letters - characteristics of a good letter, application for appointment – resume – references; appointment orders: Business enquiries - offers and quotations - orders execution of orders – cancellation of orders - Letters of complaint, letters of agency – status enquiries - circulars and circular letters notices report by individuals - reports by committees- annual report - writing of reports.

20 hours

Module III:

Non-verbal communication: Body language - Kinesics, proxemics, para language -Effective listening- Principles of effective listening: factors affecting listening - Interviewing skills - appearing in interviews - conducting interviews.

20 hours

Module IV:

Self development and communication: development of positive personal attitudes SWOT analysis - Personality development- concept of personality, concept of self- perception, personality Types.

15 hours

Module V:

Transactional analysis: Games and exercises: Business games, Group discussions; Mock interviews; Seminars - effective listening exercises - Public speaking - preparing and delivering effective public speeches - Physical exercises - Yoga and meditation for personality development.

15 hours

Semester II**MC2C9: MANAGEMENT SCIENCE****80 Hours****Marks: 80****Objectives:**

- To familiarize students with concepts of management science and tools supporting decision making
- To enable students to apply Management science techniques in appropriate decision situations.

Module 1:

Management science: basic concepts – Operations Research and Management science Models – modeling – important management science techniques – Merits and demerits. **10 hours**

Module 2:

Linear Programming : basic concepts – formulation of LPP – solutions to LPP – Graphic method – simplex method – maximizing and minimizing with inequality of constraints – applications in business **15 hours**

Module 3:

Transportation and Assignment :Transportation – basic concepts – NWC method – Least Cost method – Vogel's approximations method – stepping stone method – Modified Distribution method – Assignment - basic concepts – solution for assignment model – Hungarian assignment method.

20 hours

Module 4:

Network Analysis : Basic concepts – network – CPM – Calculation of project duration – critical activities – PERT – Time estimates in PERT – Probability of project completion – applications in business. **20 hours**

Module 5:

Queuing theory: basic concepts – Waiting line models – characteristics of single facility - single line model - Game theory– Traffic in Orenesity – decision making on queues - Applications – softwares. **15 hours**

Semester III**MC3C11: FINANCIAL MARKETS AND INSTITUTIONS****80 Hours****Marks: 80**

Objectives:

- To provide the students a sound information and knowledge of broad framework of financial markets and institutions.
- To impart the students an understanding of the inter-linkages and regulatory framework within which the system operates in India

Module 1:

An overview of financial markets: Financial markets – Nature –Functions – money market – Capital markets – Markets for derivatives – Working of stock exchange in India – NSE, BSE, OTCEI – Role of SEBI – Major international stock markets. **15 hours**

Module 2:

Interest rates :Theories of Interest rate - determination - Maturity and structure of interest rates - Term structure of interest rates - Financial repression and interest rate - The yield curve - interest rates savings - Interest rate and investment - issues of relative rates and return. **15 hours**

Module 3:

Commodity markets : MCX, NCDEX, and NMCE – Functions, administration, regulations and general mechanism – International commodity markets – Debt market – Types, functions, instruments – Operational mechanism – Hindrances for the development of debt market. **15 hours**

Module 4:

Development financial institutions: IDBI, IFCI, NABARD, SFCs, UTI, SIDBI – Mutual Fund SEBI guidelines on mutual fund – Provident Fund – Pension Funds – PFRDA – Insurance Companies – IRDA. **15 hours**

Module 5:

Foreign capital flows : forms of foreign capital – FDI and FPI – FIIs– International financial instruments – ADR, GDR, IDR and Euro bonds – Role of foreign capital in Indian financial system – Trends in foreign capital inflows to India – Regulatory framework for foreign capital flows.

Semester III

MC3C12: INCOME TAX LAW AND PRACTICE

80 Hours

Marks: 80

Objectives:

- To enable students to understand computation of taxable income of various entities and procedure of assessment.

Module 1:

Computation of Taxable Income: An overview of different heads of income – Clubbing of incomes and aggregation of income – Set off and carry forward of losses – Incomes exempt from taxes – Deductions in computing total income – Rebates and reliefs of tax. **20 hours**

Module 2:

Assessment of various entities:

- i. Assessment of agricultural Income – Computation of Agricultural Income – Calculation of tax on integration
- ii. Assessment of individuals – Treatment of income received from various institutions – Applicability of Alternate Minimum Tax (AMT) – Computation of Taxable Income and Tax Liability.
- iii. Assessment of Hindu Undivided Family (HUF) – Computation of Total Income and Tax Liability of HUF. **20 hours**

Module 3:

Assessment of firms (Including Limited Liability Partnership – LLP):

- i. Computation of book profit – Remuneration to partners – Computation of Total Income and Tax Liability – Applicability of Alternate Minimum Tax on firms.
- ii. GST-Brief history behind emergence of GST-scope of GST-Definition & meaning of CGST-Integrated GST-State GST-Levy/collection of central/state GST-Taxable person-power to grant exemption from tax
- iii. Assessment of Co-operative societies and trusts – Deductions under 80P – Other deductions – Computation of trusts – Definition – Creation – Types of trusts – Tax exemptions – Accumulation of income – Assessment of trusts.

20 hours

Module 4:

Income Tax Authorities: Powers and functions – Provisions of advance payment of tax – Tax payment – Deduction and collection of tax at source – Recovery of tax – Computer applications in tax management. **10 hours**

Module 5:

Procedure for assessment of Income Tax: Filing of return of Income – Voluntary return of income – Statutory obligations for filing of return – Time and documents for filing of returns – Return of loss – Belated returns – Revised returns – Defective returns – PAN – Different types of assessment – Self assessment – Assessment on the basis of return – Best judgment assessment – Regular assessment – Reassessment – Protective assessment. **10 hours**

(40% theory and 60% problems)

Semester III

MC3C13: RESEARCH METHODOLOGY

80 Hours

Marks: 80

Objectives:

- To acquaint students with process and methodology of research
- To enable students to identify research problems, collect and analyse data and present results.

Module 1:

Research: Basic concepts - Meaning – Objectives – Types – Approaches – Significance of research in social sciences – Process of research – Formulating problem – Literature Survey – Hypothesis – Research Design – Types – Exploratory, Descriptive, Diagnostic, Experimental – Sample Design – Collecting, analyzing, testing, interpreting and presenting result. **15 hours**

Module 2 : Population Survey and Sample Study: Population & Sample –Sampling theories - Techniques of sampling – Random and Non random techniques – Sample Size – Determination of sample size – Sampling Errors – Non sampling Errors – Factors influencing sample size – Optimum sample size – Case Study – Pilot Survey. **20 hours**

Module 3 :

Data collection : collection of Primary Data – Methods of Data Collection – Observation – Field Survey – Questionnaire - Interview Schedule – Preparation of Questionnaire – Process of Interviewing – Collection of secondary data – Sources of secondary data. **10 hours**

Module 4 :

Measurement and Scaling : Variables – Attributes – Process of measurement – Attitude Measurement – Scaling - Scaling Techniques – Graphic Rating – Likert – Thurstone – Semantic Differential – Stapel – Dichotomous –Scales – Types of Scales – Scale Values – Validity and Reliability of Scales –Errors in measurement. **20 hours**

Module 5:

Data Processing and Presentation : Field Work – Editing –Classification – Coding – Tabulation – Summarization – Analysis of data – One way ANOVA - Univariate, Bivariate and Multi variable methods - Tools of Analysis – Descriptive Analysis – Inferential analysis – Interpretation –Presentation – Report Writing - Types of Reports – Contents of Reports – Format of Reports – Documentation Styles. **15 hours**

Semester IV

MC4C14: FINANCIAL DERIVATIVES AND RISK MANAGEMENT

80 Hours

Marks: 80

Objectives:

1. To make the students efficient in the area of derivatives, by giving them the knowledge of basics in options, futures, swaps etc.

Module 1:

Introduction to risk management – Meaning and need – importance –Types of market risk – Risk management issues in business – Financial derivatives – Meaning – Need – Growth of financial derivatives markets in India – Derivative markets – Exchange traded financial derivatives for risk management in India – Participants – Functions – Types of risk management instruments – Forwards – Futures – Options – Swaps – The regulatory framework of derivative trading in India. **16 hours**

Module 2:

Future's growth and development t- Difference between forwards and futures - financial future - Future trading – currency futures – Interest rate futures Pricing and valuation – of future contracts – Value at risk-Hedging risk – Hedging with stock index future – types of members and margin system in India- Future trading in stock exchange for risk management. **20 hours**

Module 3:

Options – meaning – needs and importance-options and futures fundamental option strategies-type of option-put-call-trading strategies of risk instruments-positions in options-stock indices-options in Indian stock market. **16 hours**

Module 4 :

Risk pricing of options-intrinsic value and time value-pricing at the expiry of contract-factors affecting option pricing-put-call-parity pricing-models of pricing-binomial option-pricing models-Black Schole's pricing methods. **16 hours**

Module 5:

Swaps-meaning and definition-development-structure of swap dealing for risk management-interest rate swaps-forward swaps and swap option contracts-cancellable and extendable swaps-no generic swaps transactions. Currency swaps - Valuation and pricing of swaps - risk management function of swap transaction. **12 hours**

Semester IV

MC4C15: COST MANAGEMENT

80 Hours

Marks: 80

Objectives:

1. To provide students the adequate knowledge of modern cost management techniques and to enable them apply these techniques for managing a profitable and competitive enterprises.

Module 1:

Cost Management – Nature – Cost management system – Strategic cost management (SCM) – Components of SCM – Cost concepts in decision making. Activity Based Costing (ABC) – Need for emergence of ABC – Concept of ABC –Kaplam and Cooper's approach to ABC-Cost drivers and cost pools –Characteristics of ABC-Allocation of overheads under ABC-Steps in ABC system Implementation of ABC and its benefits.

15 hours

Module 2:

Modern cost management concepts–Kaizen costing–concepts–procedures–evaluation–benefits–target costing– nature– methods–steps–life cycle costing–phases–features–stages and importance–Product Life Cycle costing and cost control.

15 hours

Module 3:

Emerging Costing Approaches: Measuring productivity – Productivity index - Advantages of Higher productivity - Causes of low productivity – Business Process Reengineering - Concept-Importance - Issues in BPR-Just In Time (JIT) -Objectives – Features - Implementation and benefits of JIT - Value Chain Analysis - Internal linkages - Supplier linkages - role of value chain in decision analysis.

15 hours

Module 4:

Costing in service sector and process costing : Classification and collection of costs in operating costing - Transport costing-Boiler house costing Power house costing - Hospital costing – Canteen costing – Cinema theatre costing Hotel costing - Process costing - process losses and gains – valuation of work in progress (equivalent production) – Joint products and by products – Accounting for joint products and by products – Inter – process profits. **20 hours**

Module 5:

Standard costing and variance analysis: Types of standard-setting standards – advantages – variance analysis – importance – material, labour, overhead, sales and profit variance – interpretation of variance - control and efficiency ratios – investigation of variances – techniques of interpretation of variances. **15 hours**

(40% theory and 60% problems)

Elective: Finance

Semester: III

MC3 E (F) 01 FINANCIAL MANAGEMENT

80 Hours

Marks: 80

Objectives:

- To acquaint the students with the basic analytical techniques and methods of financial management of business organization.
- To provide the students the exposure to certain advanced analytical techniques that are used for taking financial policy decisions.

Module 1:

Foundation of Finance: Goals and functions of finance – Legal – Operating and Tax environment for financial decisions – Sources of short term finance – Sources of long term finance – Retained earnings – Common stock and right issues – ADRs and GDRs – Long term debt – Preferred stock – Convertible securities – Warrants and exchangeable – ECBs – FCCBs – Lease finance. **16 hours**

Module II:

Working Capital Management: Working Capital – meaning – concept and cycle – Working capital management strategy – Estimation of working capital – Mathematical and simulation models of working capital decisions – Management of cash and marketable securities – Cash management techniques – Lock box system, Concentration banking – Methods of Inventories – Techniques of inventory management – Management of receivables – Techniques of receivable management.

24 hours

Module III:

Cost of Capital: Concept – significance – Computation of cost of Debt, Preference capital, Equity capital and Retained Earnings – Opportunity cost of capital – Marginal cost of capital – WACC – Capital Asset Pricing Model. **12 hours**

Module IV:

Capital Structure: Leverage Analysis – Operating, Financial & Combined leverage – EBIT – EPS Analysis – Financial Breakeven – Indifference Point – Capital Structure Theories – Optimum capital Structure – NI approach, NOI approach, Traditional approach & Modigliani Miller approach – Arbitrage process – Determinants of Capital Structure. **16 hours**

Module V :

Dividend policy : Mechanics and practices of dividend payment – factors affecting dividend policy – legal framework of payment of dividend – dividend theories – determinants of dividend policy and some case studies. **12 hours**

Semester: III

MC3 E (F) 2: SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT

80 Hours

Marks:80

Objectives:

1. To establish a conceptual framework for the study of security analysis and portfolio management. This course will provide the students the ability to understand and utilize the skill of optimizing returns.

Module I:

Investments: Meaning and concept – Investment objectives – various asset classes – factors in investment decisions- Investment process – concept of risk and return – sources of risk – Measurement of risk and return – Diversification and hedging – ethical investing. **13 hours**

Module II:

Bond Investment analysis: Types of bonds – International bonds – Bond yields – Yield to Maturity (YTM) – risk analysis is bonds – Bond value theorem – Bond immunization strategies. **15 hours**

Module III:

Equity Analysis: Approaches to equity analysis – Fundamental analysis – Economy, Industry and Company (EIC) analysis – Equity valuation models – Dividend Discount Models (DDM) and Price Earnings Ratio (PER) models – Technical analysis – Dow theory – Chart and Chart Patterns – Market and Mathematical Indicators – Efficient Market Hypothesis (EMH) and Random Walk theory – Tests of market efficiency – Critique of Investor rationality – Behavioural Finance. **20 hours**

Module IV:

Portfolio analysis and selection: Risk return analysis of investment portfolio – Individual and Interactive risks – measurement of portfolio risks – Risks tolerance and asset allocation – optimal portfolio – portfolio selection models Markowitz model – Sharpe single index model – Capital Asset Pricing Model (CAPM) – Capital Market Line (CML) and Security Market Line (SML) – Market anomalies : calendar effect, size effect and market overreaction – Arbitrage Pricing Theory (APT) – Multifactor asset pricing Models. **20 hours**

Module V:

Portfolio Management: Active and Passive investment strategies – Value and growth investing, contrarian strategies – index investing and tracking efficiency, Portfolio evaluation- Sharpe, Treynor and Jensen measures, Fama's Decomposition Index – Portfolio revision. **12 hours**

Elective: Finance

Semester: IV

MC4 E (F) 03: STRATEGIC FINANCIAL MANAGEMENT

80 Hours

Marks: 80

Objective:

- To build an understanding among students about the concepts, vital tools and techniques used for financial decision making by a business firm.

Module I:

Financial goals and strategy : Shareholder value creation (SCV) – Market Value Added (MVA) – Market – to – Book Value (M.BV) – Economic Value Added (EVA) – managerial implications of shareholder value creation – Growth ratios – Internal Growth Rate (IGR) – Sustainable Growth Rate (SGR)

12 hours

Module II:

Financial strategy for capital structure: Leverage effect and shareholders risk – Capital structure planning and policy – Financial options and the value of the firm – Dividend policy and the value of the firm.

20 hours

Module III:

Lease Financial strategy: Leasing concept – Types – Cash flow consequences of lease – Financial evaluation of leasing - Lessee's point of view – leasing versus buying – NPV method – Equivalent loan method – Evaluation from lesser's point of view – NPV and IRR methods.

16 hours

Module IV:

Merger strategy : Theories of Merger – Horizontal, vertical and conglomerate mergers – Merger procedure – Valuation of firm – Financial impact of merger – Merger and dilution effect on EPS – Merger and dilution effect on business control.

16 hours

Module V:

Take over strategy : Types of takeovers – Negotiated and hostile bids – Take over procedures – Takeover defenses – Takeover regulations of SEBI – Distress restructuring strategy – Sell offs – Spin offs – Leveraged buy outs

16 hours
