

## Training Programme

Department of Biotechnology is always enthusiastic to empower women community. As part of this, department conducted a one day training programme on Mushroom cultivation on 20th October 2017. This programme focused to develop and help women to become an entrepreneur. The session dealt with demonstration of mushroom cultivation including bed making, watering and harvesting of mushrooms. Kudumbasree workers and parents were invited as the participants. Mr. Sreekumar A R, an entrepreneur and former trainer of Krishi Vigyan Kendra, Ernakulam was the trainer for the same. In order to encourage the participants, mushroom spawn packets were distributed.
