

Role of Capital Market in Indian Economy

On 4th September 2019, the Department of Business Administration conducted a National seminar on the topic “Role of capital market in Indian Economy”. Capital market definitely plays a constructive role in the overall development of an economy . The chief Guest of the workshop was Mr. Rajinikanth, SSM Trainer under the Ministry of Skill development and Entrepreneurship, India. The function was started by 10am with students prayer. The seminar was conducted by two sessions by forenoon and afternoon.

Morning session includes more theoretical knowledge about capital market and its structure and afternoon session deals with more practical knowledge which includes several stock marketing games which help the students to attain a clear idea about capital market.He shared a lot of information on the topic Capital market. There was an Interactive session with the students were the trainers and the students played Various games related to the stock market. Session was more interesting with stockmarketing games and much more helpful for gaining practical knowledge for students. The entire students was divided into several groups and games was done by teamwise and prizes were distributed for best performance team in stock marketing games. The seminar provides an opportunity to the students to devote their skill knowledge and competencies required during the practical session. Several students from different colleges also attended the seminar. The presence of Self financing coordinator Dr. Sr. Rosebastin makes the event more successful. After the session we were provided the participation Certificates to everyone who attend the seminar. It was truly an eye opener for all the students who attended the seminar.
