The Webinar started at 7:00 pm with prayer. The prayer was led by Ms.Pooja, student of the department of computer science, Ms. Greeshma, Assistant Professor, department of computer science welcomed everyone to the webinar session.

The first session of the webinar was taken by ANNIE SHIVA, Sub Inspector of Police, Central police station, Kochi. ANNIE SHIVA ma'am highlighted the importance of a career in a woman life. She is a true model of willpower and confidence she conveyed a great message "Ignore the challenges, Remove the illness and fly high like a phoenix bird in life". She told that a good career for women is a guarantee for herself, her family in the present and in the future she also quoted "There is no challenges in a woman, we should take them as opportunities". It was really a great informative and interactive session. Later she initiated a discussion session & clear out the queries about problems faced by the woman in current scenario, online crime reporting systems, mobile tracking systems, self-defence mechanism proposed by students. Thus the first session wrapped around 7:45 pm with vote of thanks.

The next session was started at 7:45pm and was taken by Dr.ZAKKARIYA KAI Director, DDUKCCUSAT about the "Scope and Career opportunities of IT sector and B.VOC courses". Sir began the session by highlighting the importance of B.VOC courses importance and scope in the present & future world. He told B.VOC is a practical and skill oriented program which focuses on practical knowledge along with the theoretical knowledge. B.VOC programs were started around 2013-2014 in Kerala to build a skilled work force along with graduation. After completing B.VOC courses we obtain some skills like leadership, adaptability time management... and by completing this course we got a national level certificate of NASCO. Simply we can say compared to any other conventional courses B.VOC ensures employability and skill development. Then he stressed the importance of IT Courses and also discussed it's opportunities in the present world -the session was very informative and helpful for future studies. After the session he interacted with faculties and students and cleared their doubts. The webinar was wrapped up around 8:30pm with the vote of thanks by Ms.Niranjana, Assistant Professor, department of computer science. The webinar was so useful and helped us to enhance our knowledge.
