INTERNATIONAL WORKSHOP ON WEB DESIGNING -USING
PHOTOSHOP, FLASH, DREAMWEAVER

10, 11 February 2021

1.00 pm to 2.30 pm

 Google Meet

Day 1:

Session 1 : Photoshop

Adobe Photoshop is the most widely used and acclaimed image editing software owing to its huge list of advantages and benefits, flexibility, agility, and accuracy that it offers, has a strong

user base spread across a multitude of diverse areas that consists of artists, designers, website developers, filmmakers, social media artists, brand promoters and helps in promoting business while also creating millions of job opportunities for passionate creators, conclusively Adobe Photoshop is an evergreen application that fosters creativity and ideas in users and welcomes new budding artists into the world of art and design.

Session 2 : Adobe Flash

Adobe flash is a multimedia software platform used for production of animations, rich web applications, desktop applications, mobile apps, mobile games, and embedded web browser video players. Flash displays text, vector graphics, and raster graphics to provide animations, video games, and applications.

Day 2:

Session 1 : Dreamweaver

Adobe Dreamweaver CC is a web design and an Integrated Development Environment (IDE) application that is used to develop and design websites. Dreamweaver includes a code editor that supports syntax highlighting, code completion, real-time syntax checking, and code introspection for generating code hints to assist the user in writing code.
